MINI COURSE ON DECENTRALIZED MARKETS AND SIMULTANEOUS SEARCH

SCHEDULE FOR MAY 9TH

9AM – 12.30PM	STUDENT PRESENTATIONS BY ADVANCED PHD STUDENTS INSTITUTE FOR MICROECONOMICS, JURIDICUM, 3RD FLOOR, ROOM 3.006
12.30 PM	LUNCH BY INVITATION
2.30PM – 6PM	LECTURES OPEN FOR ALL PHD STUDENTS AND POSTDOCS SEMINAR ROOM BGSE, 2ND FLOOR, KAISERSTRASSE 1

On Thursday, May 9th, Asher Wolinsky is going to hold a Mini-Course on Decentralized Markets and Simultaneous Search.

In the morning, there will be student presentations that are primarily designated to advanced PhD students of the economic departments in Bonn and Mannheim. Those students will have the opportunity to meet Asher Wolinsky as well as present their own research projects to him and discuss it afterwards. Students with any work related to economic theory will benefit from presenting their work to Professor Asher Wolinsky.

After a joined lunch (by invitation) in order to continue the discussion and to have a break, Asher Wolinsky is going to give two lectures. These lectures cover topics on decentralized markets and simultaneous search with adverse selection, both, classical work by Burdett and Judd and newer work, including his own. These lectures are intended for all PhD students and Postdocs.

In order to apply for one of the slots for student presentations, please send an e-mail until **April 18th** to Sabine Burch: burch@uni-bonn.de

For participants from Mannheim:

Once you have registered, we will organize accomodation for you.
